📍 Coimbatore

SUMMARY

Experienced **Frontend Developer** specializing in creating responsive and user-focused **UI designs**. Proficient in **HTML, CSS, JavaScript**, and frameworks like **React**, with a strong emphasis on performance optimization and seamless cross-platform functionality. Skilled in transforming design concepts into functional and visually engaging web applications while fostering collaboration with cross-functional teams. Driven by creativity and innovation, dedicated to enhancing user experiences and delivering scalable, high-impact solutions in dynamic development environments.

EXPERIENCE

UI / UX Designer / Frontend Developer

Kumaraguru College of Technology

📅 08/2024 - Present 📍 Coimbatore, India

Company Description

- **EasyWay (Travel App UI):**
- Designed responsive, scalable UI for a travel app using **Figma**, with features like interactive maps and real-time updates. Utilized plugins (Iconify, Unsplash) for quick design integration.
- **College Management App (Student & Staff Login):**
- Created user-friendly login modules and dashboards for a college app. Developed interactive prototypes in **Adobe XD** for streamlined feedback and development.
- **SecureU (Full-Stack App for PII Data Security):** Designed secure UI for an app using blockchain to store PII data. Focused on intuitive authentication screens and data management, collaborating with the backend team for security integration.
